

Environmental policy

The protection and prevention of environmental pollution, occupational safety and a healthy working environment are among the company's priorities.

By declaring this policy, the Company commits to the following steps to minimize our environmental footprint:

1. We will contribute to the future of a sustainable Earth and challenge to achieve high goals
2. Improve and regularly review the company's environmental management, including setting and reviewing environmental goals and targets and motivating employees to enforce the commitments set out in the Environmental Policy.
3. To behave in a friendly and considerate manner towards our environment thereby minimising disruption to it.
4. Comply with the applicable provisions of all legislation, i.e. laws, regulations and stakeholder decrees related to environmental protection.
5. To educate employees on environmental and occupational safety issues in a planned manner, informing them about the principles of environmental protection in the workplace and their environmental behaviour.
6. Enforce environmental policy towards suppliers and external companies. Employees are bound by the environmental policy and their basic duties include participating in its implementation.
7. The company's management is committed to providing resources in adequate quantities to address the points declared above.

Target for fiscal year 2023:

To obtain environmental management certification according to ISO 14001:2015.
