

## QUALITY POLICY

**Motto: Customer satisfaction is our key priority**

**Target: We are 1st choice for our customer**

**To enhance the corporate policy, strengthen its market position through quality improvement and increase customer satisfaction and confidence, Furukawa Electric Autoparts Central Europe s.r.o., supplier for the automotive industry mainly focused on the group products such a SRC, wire harness and connectors distribution with adequate customer support, has laid down and commits to the following Quality Policy :**

1. We want to be true partners for our customers. We continuously improve our comprehensive quality system to become faster and more , which is a prerequisite for new business opportunities.
2. We develop our employees - educated, motivated and satisfied workforce is an essential condition for top-quality, high affective processes, contributing to the company's strong adaptability in the ever-changing environment. Each of our employees contributes to meet customer requirements and expectations.
3. By controlling the working environment and fulfillment legal and customer requirements, we ensure safety of our employees and our products on the environmental friendly basis. We verify and validate all process and product changes and share information with each other.
4. In our activities we do not forget about the fundamental principles of FURUKAWA - PDCA, 5S, ethics and credibility.
5. An open constructive discussion based on current data helps to continually improve our manufacturing processes and technologies.
6. We never give up, we always aim for the set goal.
